WHO AM I?

I'm a dynamic, ambitious, natural born creative architect with 24 years. A chocolate addict and a hopeless believer.

A citizen of the world that loves Photography, cooking, color, gadgets and the unpredictability of people.

I inherited not only the perfectionism and sarcasm from my parents but also the energetic part.

I did diverse activities in different areas where I developed my communication and designer skills.

Please check my online portfolio at www.ar3f.com
